# Holiday Photo Style

The season of food, fun, and family is upon us! Many memories are soon to be made. This also means many photos will be taken. Looking polished and feeling your best go hand in hand when styling outfits for photos. I have gathered three different head to toe looks to have you completely camera ready throughout the season.

This look is what I will be wearing for family photos this season. I love this dress so much that I now own it in two colors. I prefer to pair it with sand colored sock booties and accessorize with a velvet headband and hoop earrings.

Dress available via Free People, Booties via Steve Madden, Earrings via Kendra Scott, and Headband via Target.

This preppy, yet classic look is so on trend this season. The polo-style collar is darling. I recommend pairing this dress with these gorgeous floral drop earrings and a pair of white oxford wedges!

Dress available via Target, earrings via Draper James, and oxfords via Target.

This is a more cozy and casual vibe. The henley sweater is made of a cashmere blend with adorable button detail. Pair it with dark, wide leg denim jeans and white cowboy style booties. Complete the look with a pair of braided gold hoops!

Sweater is available via Something Navy, jeans via Nordstrom, booties via Dolce Vita, and hoop earrings via Gorjana.
