

CHILD'S

PLAY

BY ALANA MOREL

CHILDREN'S ROOMS, SPACES, AND PLACES

Parents seek to provide their children with spaces that inspire creativity, nurture imaginations, and offer safe havens for play and rest. Designing kids' rooms, nurseries, play areas, and reading spaces becomes an opportunity to let imaginations soar. Explore ideas to transform your spaces into magical wonderlands for boys and girls, making their childhood memories even more cherished.

GIRLS' ROOMS

When it comes to a girl's room, it is all in the details. Bedding is key. Pretty pinks and whimsical wallpaper set the tone. Embrace creativity and let your little designer add their custom art or favorite stuffed animals. Mix and match with family heirlooms and other personal touches.

BOYS' ROOMS

For boys, embrace their personalities. Incorporate bold colors and personalized pillows. Add a color accent wall and eye-catching lighting. Family memorabilia and funky artwork will complete the space.

NURSERIES

The nursery is where the journey of wonder begins. To create a dreamy space for your little one, consider soft pastel colors, simple lighting, and personalized pillows. Invest in a cozy rocking chair and a fun mobile.

PLAY SPACES & READING NOOKS

A dedicated playspace is a child's retreat where they can unleash their creativity and energy. Fill the space with vibrant colors and display art projects to bring the room to life. Install wall-mounted organizers for easy access to toys and books. Remember to include ample storage to keep the area neat and organized. A reading nook is great for kids of all ages. Include comfy pillows for an inviting setting.
