The Cozy Edit

Cooler weather is on the horizon! Fall is here, and with all the fun things it brings, it is the perfect time to surround yourself with everything cozy in October. So many great items are available locally to help you take advantage of the season.

Talk about a functional statement piece! This gorgeous pumpkin candle by Thyme is not only a great decor piece but also smells delicious. Even after the candle has burned completely, you will still have a fun fall pumpkin.

Arkansas native James Hayes creates gorgeous glass-blown art. His work is well known throughout the country for his whimsical lines and colors. His pumpkins are a staple of his art and are perfect to display during the fall season.

Need to feel put together but also cute and comfortable? A matching set is the way to go! I got one of these pullovers and wide leg sets last year and it's one of my most worn + complimented looks! It can easily be dressed up or down depending on the event.

Pumpkins and gourds are perfect for displaying on your porch this month. I especially love the funky white and green ones. Grab pumpkins of different sizes, shapes, and colors for a balanced display.
